

Part Bins

LEWISBins+ Part Bins are designed to bring value and efficiency. These high-performance polypropylene bins are used for secure storage of parts and products in industrial assembly operations, healthcare, stockroom, warehouse and hardware merchandising applications.

Add efficiency to assembly, work-in-process and picking applications in a wide range of industries!

- Automotive
- Retail
- Pharmaceutical
- Electronics

- >> Hopper front with curved design enables convenient part retrieval.
- >> Wide stacking ridge enables stacking to save space.
- >> Fully compatible with competitive part bins.
- >> Finger grips, for better ergonomics, on selected sizes.
- >> Optional length dividers keep contents organized. Dividers also increase versatility by providing an optimized compartment size.
- >> Selected bins hang securely on rails or louvered panels. (See pp. 3-12 for Metal Storage Systems)
- >> Large front label slot allows bar code or ID card.

NOW available in Clear polypropylene, for easy content identification! These easy-view, stackable bins allow for instant visual inventory.
